# INTERN INTERVIEW TIPS

## We're taking the stress out of interviewing interns.

**Here are some tips to help you through your intern interviews:**

- Schedule a phone or zoom interview for non-local students.
- Ask questions related to the job responsibilities as well as behavioral questions (e.g. What would you do in this situation...).
- Review the candidate's resume before the interview so it's fresh in your mind.
- Describe the company and the position to the candidate in an easy-to-understand way and answer any questions they have.
- At the end of the interview, give the candidate a timeline so they know the next steps.
